...connected to 5G :
Our incubator for developing NFT
open badges

a key player in industrial
innovation in the Paris region

The first campus dedicated to the digital
transformation of businesses in 5G.
It will be inaugurated on November 14 in the presence of
the French Minister for the Digital Economy. This
campus will offer the opportunity to exchange ideas
with a wide range of 5G players (5G core, integrators,
etc.).

and CO2 Compensation

Our consortium activities

Web3/Blockchain

1. Promoting adoption by professionals in all sectors (insurance, banking, supply chain, local authorities, brands, sports clubs and federations, real estate, luxury goods);
2. Professional training;
3. Talent payroll management and placement on assignments and projects;
4. Participation and technology watch at technology fairs and hackathons;
5. European lobbying and regulatory monitoring (MiCA1 , 2 etc);
6. Crowdfunding and issuing digital tokens (ICO);
7. European program management, including R&D and co-investment in open innovation, notably in the collateralization of crypto assets with real assets (such as precious metals, real estate, energy).
8. Tokenization charter for the circular economy (adapted from the Paris Agreement), development of tokenized green finance with green tokens and the green mining farms industry.

OUR WEB 3.0/BLOCKCHAIN/CRYPTO/IOT/5G SOLUTIONS

- WALLET CORPORATE bank class rank 1, 2 or 3
- A CASH MANAGEMENT service to provide you with a new buying and selling experience by accepting ONline/OFFline crypto-currency payments authorized by our banking syndicates and insurance captives.
- Master web3 and chatgpt artificial intelligence; POEI TRAINING for jobseekers or AFEST for employees (treasurers, CFOs, legal, digital, CEOs, etc.) undergoing retraining or professional development, or ongoing training for our network of franchisees.
- CONSULTING by monthly or annual subscription to access our airlines and travel marketplace
- Access to the Buy & Hold strategies of our AMF-registered ALTERNATIVE INVESTMENT FUNDS
- Access to our WEB FRANCHISE 3.0 technological network to adapt to geopolitical reprogramming and courses with French and international partners

OUR BUSINESS

- Promoting the adoption of crypto-assets by professionals in all sectors;
- Professionnal Vocational training;
- Talent payroll management and placement in assignments and projects;
- Participation and technology watch in technology fairs and hackathons;
- Lobbying and European regulatory monitoring;
- Crowdfunding and the issuance of digital tokens (ICO);
- European program management, in particular R&D and co-investment in open innovation, in particular in the collateralisation of crypto assets with real assets (such as precious metals, real estate, energy) , the development of tokenized green finance with green tokens and the industry of green mining farms (or green mining).

Our markets: B2B / B2B2C

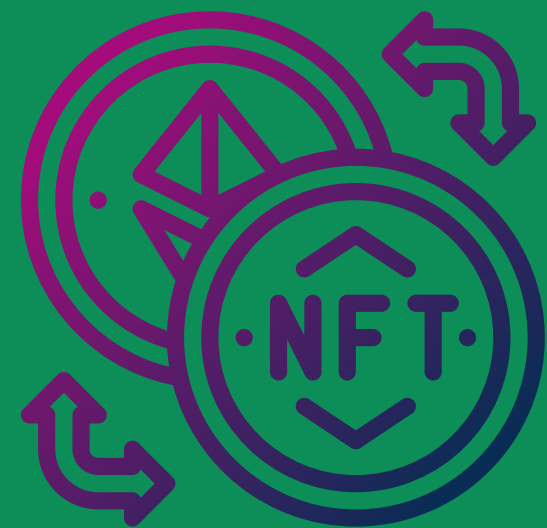

Supply Chain and Intercompany Insurance and Lending

Digital Marketing Master Franchise Management

Digital Asset Management and Decentralized Finance,

Skills Certification and Professional Training

4. TOKENOMICS

The governance token EXA (Utility Token) is the token that is governing the consortium's liquidity pool and who gives governance rights to the companies in order to:

1. Participate to our hybrid meetings (Virtual, real, remote or presential),
General Assemblies, european projects
2. Build and invest in a new user experience based on your profile in our ecosystem (company, collaborator, investor, visitor)
3. Develop and experiment our automated services via our algorithms, protocols, smart contracts and our accelerations no matter the sector

The performance token WAGE aims to suggest a reward system to the employees of companies who mobilize lots of work time and time in complex tasks in order to congratulate them of their support and contribution regarding the company's needs.

The New normal in DAO GOVERNANCE

Open architecture for banking, insurance, asset management, real estate, payment and crypto, small businesses :

Charte verte pour la tokenisation de l'économie circulaire

L'écosystème Euronixa, qu'il soit basé sur un processus Proof of Work ou Proof of Stake, s'engage à appliquer et respecter les règlements, bonnes pratiques européennes en matière de critères **ESG** (Environnement Social Gouvernance), **ISR** (Investissement Socialement Responsable), **RSE** (Responsabilité des Entreprises), **RGPD** (Règlement Général de Protection des Données), **KYC** (Know Your Customer), **KYB** (Know Your Business), **AML** (Anti Money Laundering) niveau 5, numéro H2020 **PIC** (Partner Identification Code de la Commission Européenne), **TRL** (Technology Readiness Level) niveau 5 ou 6, **100 TPS** (Transactions Per Second) protocole, réglementations **MiCA** (Markets in Crypto Assets) et **TFR** (Transfer on Funds Regulation)

Le consortium s'engage à respecter les réglementations et bonnes pratiques européennes concernant l'émission, l'échange de jetons et de crypto-monnaies

Cette **charte verte pour la tokenisation de l'économie circulaire** porte sur les 8 points suivants :

1. La protection des données et la défense des intérêts des utilisateurs du Web 3
2. La protection des investisseurs par la mise à disposition de :
 - a) wallets **personnels** pour récompenser les collaborateurs et talents en jetons **WAGE**
 - b) wallets **professionnels** pour accepter les paiements en **cryptos** (Bitcoin, Ethereum, Tezos)
 - c) wallets **hébergés** (custodial wallet) pour que les entreprises membres du consortium acceptent d'utiliser les jetons **EXA** et **LOFT** pour leurs opérations financières, commerciales et immobilières
3. La formation qualifiante et certifiante des dirigeants, collaborateurs et conseils
4. La mise à disposition et le recrutement de personnel qualifié, notamment pour les activités nationales, européennes et internationales de R&D, d'exportation, de standardisation, lobbying, réponse aux appels d'offres dans les marchés publics privés et d'appels à projets européens dans la green tech
5. L'accélération de la tokenisation de l'économie en EMEA (Europe Middle-East Africa) via l'utilisation de la **finance décentralisée (DeFi / Decentralized Finance)**

6. L'aide à la pré-commercialisation et représentation en Europe et dans le monde, des offres, solutions, projets des membres et partenaires en tant que distributeur ou représentant

7. L'objectif d'atteindre net-zero emissions de consommation électrique pour les signataires du Crypto Climate Accord (CCA) d'ici 2030 (<https://cryptoclimate.org/accord/>)

8. Le développement de standards, d'outils et technologies avec des supporters du CCA pour accélérer l'adoption et vérifier l'évolution des blockchains utilisant des énergies renouvelables d'ici la conférence UNFCCC COP30 de 2025 (<https://cryptoclimate.org/solutions/>)

Par cette signature, vous vous engagez à respecter les termes de cette charte.

- CLASSIFICATION OF AUM (ASSET UNDER MANAGEMENT):
 1. STOCKS
 2. TOKENISED ASSET

EURONIXA ROADMAP

2013

PhD project on the impact of P2P payments on the European banking industry as it faces the debt wall (CESD/EIT digital Lab)

2019 : TRL 1-2

setting up services such as crowdfunding and the issuance of digital tokens (ICOs), lobbying, European regulatory watch, promoting the adoption of crypto-assets by professionals in all sectors and professional training for our members

2021 : TRL 3-4

Tokenization on the blockchain opens the possibility of a new financial exchange system, more efficient, transparent and accessible.

Année 2023

We're setting up our Metaverse Euronixa1 platform, where our members can connect with their contacts, work, shop, do business, talk investment and even create and play games. This is our gift to our members in 2023.

2008

WHITE PAPER Of Satoshi Nakamoto

2015

Technology watch on crowdfunding in the tourism industry in TAHITI

2020: TRL 2-3

collaboration with Delubac Bank ensures the security not only of your tokens and data, but also of any payment service. Get a PCI-compliant safe that tokenizes and secures payment methods with a single API. Stand-alone safe.

2022: TRL 4

Our goal in 2022 was to be the best platform for tokenizing assets. However, KLEROS was the best, with an incredible investment of \$330 million. Nevertheless, it remains a benchmark for us. Technology watch on gold tokenization with the IM exchange
